

NORTHGATE BUILDERS

BUILDING EXCELLENCE THROUGH EDUCATION
AWARD

NON-TRADITIONAL STUDENT
EDUCATION ASSISTANCE
APPLICATION

Our community is composed of people with a wide variety of interests and talents. The success of the community depends on this variety. Northgate Builders has established a non-traditional student education assistance program to include adult learners in Jo Daviess County.

Not all students had the opportunity to pursue additional education after high school and find they need to complete their education, enhance their skills, or need some level of additional training to improve their lives and positions in society and the workplace. We aim to help the adult learners achieve this goal.

Northgate Builders will also encourage each student to remain committed to and involved in their community. This might be involvement in not-for-profit groups, coaching, church, and the like. The choice of how to help is secondary to understanding the need to help.

The future of our community is based on how we all can help each other and what we can offer. Northgate Builders are committed to assisting people reach their educational goals and personal potential.

NORTHGATE BUILDERS
